

Resources for Victims of Domestic Violence in the Workplace

If you are a victim of domestic violence and fearful for your safety in the workplace or outside, there are steps you can take to increase your safety. Speak confidentially with your supervisor or manager about the supports and protections available to you in the DCFS workplace. These safety measures are set forth in DCFS Policy 3-4.

If you are being abused in a situation of domestic violence, there are resources in the community staffed with people who want to help you.
